December 2023

Dear Moonshot team,

First of all thank you for your letter and thank you for considering me to be a part of your contest. This is a great opportunity for my personal and professional development, I really like the field of work and can't wait to get to know you and my colleagues. Me and my abilities with you guys, we will be a great team to face the challenges!

This contest will give me a huge leg-up into the world of business and entrepreneurship. It will help me be smarter and more confident with my decisions in the bright future ahead. I have got the ideas of what it takes for a top-notch entrepreneur and with the right people around me, we can build something massive and more powerful than us combined.

Although my expertise is designing, developing, and maintaining web applications I can see myself doing bits in other fields as well. I consider myself a good team player and with my knowledge in the tech world I would be a great fit with other roles such as PM or BA but I'm not really into designing so I will pass on that.

I'm grateful for this opportunity, thank you for taking the time to review my application. Can't wait to start working with you!

Best regards,

Sime Yankulov
