Martin Stanchev

Self-taught UX/UI designer and developer

EXPERIENCE AND PROJECTS

Timag, Plovdiv— *Designer/Developer*

January 2022 - March 2022

Mon Student Practices

- Design of banners, logos etc.
- Making websites (HTML,CSS,JavaScript)

The Wild Oasis — *Course project* — React, React Query, Styled Components, Supabase, Recharts

September 2023

The main project of a React course I recently took. It taught me a lot about various useful development patterns and libraries common in modern applications. The project implements a management system which allows the employees of a resort to add, delete or edit cabins as well as check in or check out guests of the resort. GitHub, Live Demo

TMDB Application — *Interview task* — React, Material UI, Axios

January 2023

An application which filters and fetches movies from TMDB API(a file filled with movie titles separated by commas is needed in order to run the application). GitHub, Live Demo

GuitarDB — *University project* — Node.js, Express, Axios, MongoDB

July 2022 - August 2022

A project I put together for one of the courses we had at university (Distributed Applications). GitHub

Mapi — *University project* — React Native, SQLite, Expo

October 2022

A simple mobile application I built for another course we had at university (Mobile Applications). GitHub

EDUCATION

'Paisii Hilendarski' Plovdiv University — *Bachelor of science: Software Engineering*

July 2020 - Current

Faculty of Mathematics and Informatics of 'Pasissi Hilendarski' Plovdiv University - Plovdiv, Bulgaria
