Summary:

Dedicated and results-driven professional with a strong foundation in Software Engineering. Currently a 4th-year student at 'Paisii Hilendarski' Plovdiv University, pursuing a Bachelor of Science in Software Engineering. Proficient in basic IT skills and excels in trading and odds market offerings for sports events.

Education:

Bachelor of Science in Software Engineering

'Paisii Hilendarski' Plovdiv University

(Expected Graduation: 06 2024)

Skills:

- Basic IT Skills

- Trading and Odds Market Analysis

- Risk Assessment and Management

- Customer Service

- React, Node.js, jQuery, JavaScript, CSS, HTML Photoshop, 3ds-Max, AutoDesk

Project:

Personal Project | Home-based | Ongoing

- Developing a Check-In Card System for secure, cashless transactions. Users can create profiles with stored funds, facilitated by Signal Devise with NFC technology on Android bands connected to a virtual wallet. Aimed at enhancing convenience and security, the project is part of my university coursework. Passionate about its potential, I am working towards turning it into a commercially viable product.

Work Experience:

Gym Coach | CityGym, Sliven | 1.05.2021 - 2022

- Provided coaching services for gym clients, focusing on fitness and well-being.

- Developed and implemented personalized training programs.
